

City of Austin - JOB DESCRIPTION

Airport Maintenance Coordinator

FLSA:	Standard/Non-Exempt	EEO Category:	(30) Technicians
Class Code:	11742	Salary Grade:	XO9
Approved:		Last Revised:	April 08, 2012

Purpose:

Under general direction, this position provides leadership over airline maintenance staff to include training, guiding, and assisting staff. The position will also coordinate work between numerous divisions and agencies, ensure quality control, and act as the liaison between the Airline Maintenance division and others on maintenance related issues.

Duties, Functions and Responsibilities:

Essential duties and functions, pursuant to the Americans with Disabilities Act, may include the following. Other related duties may be assigned.

1. Coordinates Airline Maintenance program and ensure airport facilities, employees, contractors, etc. are in compliance with all governmental regulations.
2. Serves as liaison between Airline Maintenance Division and others in regards to maintenance issues; communicate airline maintenance sections' project and program information to management.
3. Collaborates with engineering and architectural managerial staff in the planning, development, and modification of City of Austin's Aviation Department owned facilities and or other CIP projects.
4. Represents the Department of Aviation, the Airline Maintenance Division, and the City of Austin in meetings with airport tenants.
5. Performs facility inspections to evaluate and assess necessary routine and preventative maintenance.
6. Ensures compliance with TSA-1542 federal inspections, safety, standard operating procedures, and all applicable city, state, and federal requirements with regards to the operations of all airport facilities.
7. Attends meetings with airport tenant management and airport personnel management to assess maintenance needs in regards to airline maintenance issues.
8. Assists in the development of short/long range plans as well as perform the monitoring of the progress in achieving established short/long range plans.
9. Monitors budget and ensure airline maintenance parts are within established budgetary goals.
10. Monitors maintenance management program (TMA) for work performed and materials used by equipment technicians; identify needs for personnel support through analysis and discussion of current assessments.
11. Performs contract/procurement duties. Recommend major purchases and expenditures; develop specifications for product price and services; monitor contracts and contractors to ensure compliance; assist with developing, requisitioning, receiving, storing, and issuing inventory of replacement parts; and assist management in the process of purchasing and retiring surplus capital equipment.

Responsibilities - Supervisor and/or Leadership Exercised:

May lead and train others.

Knowledge, Skills, and Abilities:

Must possess required knowledge, skills, abilities and experience and be able to explain and demonstrate, with or without reasonable accommodations, that the essential functions of the job can be performed.

Knowledge of all governmental regulations such as TSA, EPA, TNRCC, OSHA, FAA, and other

Knowledge of all governmental regulations such as TSA, EPA, TNRCC, OSHA, FAA, and other guidelines governing the regulations addressing the operation/maintenance and upkeep of commercial airports.
